Please find below and/or attached an Office communication concerning this application or proceeding.

The amendment filed on 8-7-03 canceling all claims drawn to the elected invention and presenting only claims drawn to a non-elected invention is non-responsive (MPEP § 821.03). The remaining claims are not readable on the elected invention because instant claims 11-13 relate to a method of contacting a vapor and liquid which is independent and distinct from originally presented claims 1-10 to an air washer. The inventions are distinct, each from the other because of the following reasons:

Inventions to claims 11-13 and to claims 1-10 are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case, the apparatus can be used to practice another and materially different process such as washing of air with liquid to remove contaminants and the process can be practiced with another and materially different apparatus such as a carburetor.

Since the above-mentioned amendment appears to be a *bona fide* attempt to reply, applicant is given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS, whichever is longer, from the mailing date of this notice within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD UNDER 37 CFR 1.136(a) ARE AVAILABLE.
